SPRING 1953 DELIVERY

WHY OUR GRAFTS ARE AS GOOD AS CAN BE GROWN

They are made by expert labor only.

They are made on strong, thrifty understock with proper root growth, established in 2½ inch pots.

They are made with long, young scions.

They are made under proper heat and ventilation to insure proper callousing.

These are only a few of the reasons why Chandler's Grafts make such rapid growth when lined out in the field.
